

# YTS (Your-economy Time Series) Establishment Data

BDRC assembles the YTS (Your-economy Time Series) database from 22 annual snapshots following U.S. businesses at their unique location from 1997-2018. We offer two (2) tiers from the YTS database where you can purchase licensed data.

## TIER 1 - CUSTOM RECORDS

Bring any custom research project to BDRC and we will work with you so that you receive the most amount of relative data for the least cost.

Price	\$1,000	\$3,000	\$4,750	\$8,000	\$12,500	\$18,000	\$25,000

- ◆ **US Academic file** option is for research with the singular goal of publishing results that will be shared with BDRC.
- ◆ Because a scope for custom records must be defined, and resources required for assembly and delivery, subscriptions for static regions are discounted from custom pricing.

## YTS DATA LICENSE AND UPDATES

All licensed data include a one-time delivery with a two year license for use of the data. No additional updates are available and the data would have to be purchased with a new license if necessary for further use.

The data license agreement will be handled by a simple MOU from the University of Wisconsin System Institute for Business and Entrepreneurship.

## BUSINESS CONTACTS WITH ADDRESS

Standard YTS Database packages do not include *business contact* information. You can purchase the latest contact information for any business and receive current info: company name, address, phone, owner or officer, and management members if available.

- Up to 5,000: \$.15 cents each
- 5,000 plus: \$.10 cents each
